

1.0T engine problems

Escrito por kevinmanuel - 19/03/2018 07:58

Hi,

I have read about problems with pinking on this engine in another post on here. but is this the only problem anybody has had with this engine? I don't want this to become a debate about performance drivability or anything else just about problems and faults .

please help

I did not find the right solution from the internet.
