

Audi Q7 Reliability

Escrito por kevinmanuel - 20/04/2018 12:58

Hi,

I was thinking of surprising my wife with a new car. She has a 2011 Acura MDX that has been flawless, but I can tell she is getting the new car itch. We looked at SUV's a while back and she liked the Lexus RX350 and the Audi Q7, but she said she thought it was stupid to spend \$70k on a Q7 (the RX350 is ONLY \$55k). Well, that's where I come in. I'm stupid. I will get her the Q7.

Only concern I have is the maintenance cost of an Audi and reliability. I have no experience with Audi. The MDX was not expensive to maintain. It has had no issues. I would get her another MDX, but I can tell she would like something different. I drive an Acura TLX and it is also flawless so far. Any feedback from the BH nation?

Please help.

I didn't find the right solution from the Internet.
