Composite Loan (plot+home) problem
Escrito por MichaelMorin - 16/04/2018 05:35

## Hi ,

I have taken BOB composite loan (plot+home construction) and its been 4 years into the loan and $i$ have replayed $80 \%$ of the amount taken. Now i noticed that (when i went to bank to close my acct) they have charged me additional 2 L ( 5 months back) for not constructing home even after 3 years. Can someone please help how i can get rid of this additional amount charged?

Please help.
I didn't find the right solution from the Internet.
