

How can credit enquiries affect my home loan application?

Escrito por MichaelMorin - 16/04/2018 05:38

Hi,

I am on full time employment currently earning six figures salary per annum. I want to take out a loan for my home purchase. I have heard that credit enquiries can affect the outcome of my loan application. But I am not sure what exactly a credit enquiry is.

Currently, I have a car loan that I took out about a year and a half ago and a personal loan that I took out about six months back. I have a credit card that has a limit of \$50,000. Will these existing loans have any impact on my home loan application?

What are credit enquiries and how do they affect my loan applications?

Please help.

I didn't find the right solution from the Internet.
