Auto start stop not working Escrito por MichaelMorin - 24/04/2018 04:04

Hi,

Just picked up a new 2016 cruze premier. The auto stop start has not worked yet and i have 100 kms on the car now. Any ideas? Even the test drive with another cruze didnt have the auto start stop working. I checked out the manual and have found nothing?

Please help.

I didn't find the right solution from the Internet.
