

what do I need to know or do before I get started?

Hello,

I have a number of things I want to sell off, starting in the Agora - it's been years since I used my (basic) Paypal account, and I believe I only used it for outgoing payments. I only have a linked CC, not a linked bank account. I will want to remove the proceeds from the Paypal account.

So, what do I need to know or do before I get started?

Should I open a new bank account with minimal cash to link with Paypal?

Please help.

I didn't find the right solution from the internet.
