Vhat cause your illness? scrito por MichaelSmith - 16/05/2018 07:20
ello,
m wondering what cause other people's depression, anxietyetc? My parents and my school cause the lost, and now pretty much every person I met I'm afraid they don't like m, every friend I have I'm afraid lose, and I can't stand that pressure anymore. People tell me to look around and find the people you and and the ones who love you so you can hold on, but I don't love anyone and no one loves me, I don ven love myself and I'm all alone trying to die but afraid again. I can't hold on, I have no one and I also st myself.
lease help
didn't find the right solution from the internet.
