Health insurance - pre-existing conditions

Hello,

My friend and I just had our visas approved and will be moving to Spain on Sept. 17. We currently have travel insurance to satisfy our visa requirements, but we would like to find more comprehensive coverage. Can anyone recommend insurance companies that will cover someone with pre-existing conditions? We've already applied to Sanitas and Caser and were turned down by both. Also, if we cannot find coverage, does anyone know how much it costs for doctor visits and prescriptions if you don't have health insurance?

Please help

I didn't find the right solution from the internet.
